Safety 1st **Safety 2nd** **Safety Always!**

- Supervise bathers at all times.
- Educate all bathers about your pool and your rules before allowing them to enter.

Reading the “safety literature” is vital for the safety of your family. We insist that you read each and every piece of literature that is normally enclosed in your pool liner package. You should find several important items with which you must become familiar:

- 1) “DANGER” no diving area warning sign.
- 2) “No Diving” stickers.
- 3) “Caution” sticker for pool steps.
- 4) “The Sensible Way to Enjoy Your Pool,” a booklet published by The Association of Pool & Spa Professionals (APSP).

APSP has other excellent publications that are available. These publications can be ordered by calling or writing them at the Association of Pool & Spa Professionals, 2111 Eisenhower Avenue, Alexandria, VA 22314, (703) 838-0083; or by visiting the APSP consumer web site at www.theapsp.org.

Ask your independent Pool and Spa Professional or contractor about obtaining additional safety information.

IMPORTANT!

“No Diving” signage must be installed on the coping around the perimeter of your pool. “Caution” signage also must be affixed to the steps.

The pool photographs in this brochure are for illustrative purposes only. The pools were constructed using individual components from many different manufacturers.
